

Mary Eden Ciasico

Dawson Rd Windsor, ON N8Y 4A2 (437) 553-7039

Product Designer & Front-End Developer

maryciasico@yahoo.com [linkedin.com/in/mary-ciasico](https://www.linkedin.com/in/mary-ciasico)

PROFESSIONAL SUMMARY

Product Designer & Front-End Developer with a strong foundation in user-centered design, responsive web development, and interactive digital experiences. Recently completed a Diploma in Web Development and Internet Applications at Fanshawe College, with hands-on experience designing and building web and mobile applications, dashboards, and portfolio websites using React, React Native, JavaScript, WordPress, and Firebase. Portfolio includes responsive websites, interactive dashboards, mobile applications, and cloud-connected web applications focused on usability and user experience.

Passionate about creating intuitive, accessible, and visually engaging user experiences that solve real-world problems. Skilled in responsive design, information architecture, user flows, dashboard design, visual hierarchy, and modern front-end development. Combines strong analytical and problem-solving abilities developed through 13+ years of engineering experience with a growing focus on product design and digital user experiences.

- Eligible to work in Canada (PGWP valid until May 2029)
- Open to U.S. visa sponsorship opportunities
- Available immediately
- Open to remote, hybrid, onsite, contract, and full-time opportunities

HIGHLIGHT OF QUALIFICATIONS

- Front-End and Mobile Developer with hands-on experience building responsive, interactive web and mobile applications using HTML, CSS, JavaScript, React, and React Native
- Strong knowledge of React fundamentals including components, props, state management, hooks, conditional rendering, and reusable UI architecture
- Experience developing dashboards, data-driven applications, CRUD systems, and dynamic user interfaces with real-time updates and filtering functionality
- Proficient in JavaScript DOM manipulation, event handling, form validation, asynchronous data handling (AJAX), and responsive UI development
- Experience implementing mobile-first, responsive layouts using Flexbox, CSS Grid, and accessibility-focused UI/UX best practices
- Familiar with Firebase/Firestore databases, cloud-connected applications, and basic SQL for data querying and persistent storage
- Experience using Git and GitHub for version control, collaboration, debugging, and project tracking in team-based and independent environments
- Exposure to interactive systems development including physics-based mobile applications, scoring systems, collision detection, and event-driven programming
- Strong problem-solving skills, adaptability, and ability to quickly learn new technologies in fast-paced project environments
- Engineering background with experience in system integration, troubleshooting, cross-functional collaboration, and technical problem resolution

EDUCATION

Web Development and Internet Applications, Diploma (Honours)

01/2025-04/2026

Fanshawe College London, Ontario

Bachelor of Science in Electronics Communications Engineering

05/2001-05/2007

Central Philippine University Philippines

TECHNICAL SKILLS

UI/UX & Product Design

- User Flows
- Wireframing
- Information Architecture
- Responsive Design
- Accessibility
- Design Systems
- User-Centered Design
- Interaction Design
- Dashboard Design
- Visual Hierarchy
- Typography
- Mobile-First Design
- Figma (Foundational Knowledge)

Software Development & Web Technologies

- JavaScript
- HTML5
- CSS3
- React
- React Native
- Firebase
- TypeScript
- Node.js
- Firestore
- REST APIs
- GitHub
- WordPress
- Responsive Web Development

Design & Visualization Tools

- Figma
- WordPress
- D3.js
- Chart.js
- Data Visualization
- Dashboard Development

Data, Cloud & Analytics

- Firebase Cloud Services
- Firestore Database
- Database Management
- Reporting Tools
- Excel Macros

Systems Engineering

- Requirements Analysis
- System Integration
- Validation & Testing
- Root Cause Analysis
- DFMEA
- DVP&R
- Engineering Change Management
- Requirements Traceability

Automotive & Electrical Systems

- Wiring Harness Design
- Circuit Development
- Electrical Architecture
- CAN Communication
- Subsystem Integration
- Electrical Service Manual (ESM) Support

Automotive Engineering Tools

- Capital Logic
- Capital XC
- Capital Integrator
- CR5000
- CATIA V5

WEB DEVELOPMENT EXPERIENCE

Web Developer

01/2025-04/2026

Fanshawe College (Academic & Personal Projects)

- Developed responsive web and mobile applications using HTML, CSS, JavaScript, React, React Native, Node.js, and WordPress, delivering scalable and user-friendly interfaces across desktop and mobile platforms
- Built interactive dashboards, data-driven applications, and client-server systems featuring CRUD operations, dynamic filtering, sortable tables, real-time UI updates, and structured data management
- Designed reusable React and React Native components with state management using hooks, improving maintainability, modularity, and application scalability
- Integrated Firebase/Firestore databases, AJAX communication, and WordPress plugins to support persistent storage, cloud-connected applications, API-style data interactions, and optimized website performance

- Developed projects involving scoring systems, event handling, collision detection, physics-based interactions, and responsive UI controls using React Native Game Engine and Matter.js
- Implemented UX-focused design principles including mobile-first layouts, accessibility standards, responsive navigation, form validation, error handling, and performance optimization
- Applied software development lifecycle (SDLC) practices including planning, debugging, testing, deployment, and iterative feature improvements for maintainable and professional deliverables
- Utilized Git and GitHub for version control, collaboration, troubleshooting, and project management within team-based and independent development environments
- Worked with structured datasets, data visualization concepts, and filtering systems to support interactive reporting and user-driven data analysis
- Demonstrated strong adaptability and problem-solving by independently learning modern web, mobile, and cloud technologies in fast-paced academic project environments
- Developed personal and collaborative projects involving web applications, dashboards, cloud databases, and interactive systems aligned with modern software and automation concepts

PROJECTS

Personal Portfolio Website

Wordpress, HTML, CSS

- Designed and developed a personal portfolio website showcasing projects, skills, and professional experience through a clean and user-centered interface.
- Created responsive layouts optimized for desktop, tablet, and mobile devices to ensure a consistent user experience.
- Applied visual hierarchy, typography, spacing, and content organization principles to improve usability and readability.
- Established a cohesive personal brand through consistent design elements, navigation patterns, and visual storytelling.
- Optimized website structure and content presentation to support user engagement and easy project discovery.

Command TV Interactive Dashboard

HTML, CSS, JavaScript, D3.js / Chart.js (Data Visualization)

- Designed and developed an interactive analytics dashboard that transformed complex YouTube data into intuitive visual experiences.
- Created user-friendly information architecture and dashboard layouts to help users quickly identify trends, channel performance, and key metrics.
- Developed responsive interfaces and reusable visual components for desktop and mobile viewing.
- Implemented interactive data visualizations, filtering, highlighting, and dynamic chart updates to improve user engagement and decision-making.
- Applied branding guidelines, typography, color systems, and visual hierarchy principles to create a consistent user experience.

- Conducted iterative design improvements focused on usability, clarity, and accessibility.

Career Tracker Web Application

React, Firebase, Firestore, GitHub

- Designed and built a career-tracking application that helps users manage applications, interviews, and career goals through an intuitive dashboard experience.
- Created user-centered workflows, navigation patterns, and dashboard interfaces to simplify information management.
- Developed reusable React components and scalable UI structures to support maintainability and future feature growth.
- Integrated real-time cloud-based data storage using Firebase and Firestore to provide seamless user experiences.
- Applied responsive design principles and accessibility considerations across multiple screen sizes.
- Collaborated using GitHub workflows and version control to support iterative development and feature enhancements.

E-Commerce Mobile Application

React Native (Expo), Firebase Authentication, Firestore

- Designed and developed a mobile shopping experience focused on intuitive navigation, product discovery, and streamlined checkout workflows.
- Created user flows for authentication, product browsing, shopping cart management, and order confirmation.
- Implemented responsive mobile interfaces using reusable components and modern UI design principles.
- Designed profile management features, order history tracking, and account management functionality to improve user engagement.
- Applied usability and accessibility best practices to create efficient and user-friendly mobile interactions.
- Integrated Firebase Authentication and Firestore to support secure account management and persistent user data.

ADDITIONAL EXPERIENCE (TRANSFERABLE SKILLS)

Design Support Group Leader

05/2010-05/2023

Furukawa Automotive Systems Design PHILS., INC Laguna, Philippines

- Led cross-functional teams, coordinated tasks, and met strict deadlines
- Communicated technical requirements clearly with stakeholders and customers
- Created structured documentation and reports using Excel and presentation tools

System Design Engineer**09/2018-02/2023***American Furukawa Inc., Michigan USA*

- Analyzed technical documentation and diagrams to identify and resolve issues
- Applied structured problem-solving and attention to detail in complex systems

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Front-End Developer**02/2024-12/2024***Codecademy - (Certificate of Completion)***The core track of the Data Analytics Course****05/2023-12/2023***Refocus E-learning Philippines Corp. 2023 - (Certificate of Completion)***VOLUNTEER ACTIVITIES**

Volunteer Web Developer (WordPress)**07/2025-Present***Canadian Christian Recreational Association Remote*

- Maintain and update WordPress website content, pages, and media.
- Assist with website enhancements to improve usability and user experience.
- Troubleshoot website issues and implement fixes as needed.
- Collaborate with the team to support online outreach and digital initiatives.

Fanshawe Online Ambassadors**09/2025-01/2026***Fanshawe College London, Ontario*

- Assisted students with online platforms and digital tools
- Provided clear, user-focused support for technical issues

Facility Support Volunteer**01/2025-05/2025***Crouch Neighbourhood Resource Centre London, Ontario*

- Delivered professional, user-focused assistance in a fast-paced environment
